### CLIENT REQUEST

Create the ability to add a point of contact to the bottom of the story. Auto populate with the author name and formatted phone number. Create the ability to add multiple hyper links to a story. Each link should capture the URL value. The client article should display the link name. Create the ability to add / insert a table into the body of the story. Create the ability to add an image to the body of a story. Create the ability to display the channel name when reviewing or approving a story. Create the ability to re-publish a story. Create the ability to remove a published story. Create the ability to warn a user that their session has timed out. Review the expiration date process. Review Server Side Publish Rates. Create the ability to automate user registration.

### BUSINESS BENEFITS DESCRIPTION

TBD

### **PROBLEM STATEMENT**

End users need a contact name and number so they have a source that can provide answers to questions. Some stories have multiple hyper links that are needed to provide additional stories. Publishers need the ability to cut and paste excel tables in their stories. Publishers need the ability to change stories that have been published. Publishers need the ability to remove stories that have been published.

### **SOLUTION SCOPE**

Create the capabilities as requested

### **RISKS, ASSUMPTIONS AND DEPENDENCIES**

n/a
